Conclusion:

As it is clearly seen via the chart that the word 'Naman' has been most popular in the range of years 2000-2004. I was born on 26-05-2002, this indicates a similarity in the trend of using the word. This also justifies why most of the people named "NAMAN" are the same age as me.

This tells us how a word is widely used to name people in a generation and how common their names are.

However, the conclusion from the use of the words (image 3), shows that there have been famous people named Naman who were addressed in one or the other media sources (mostly TV).
